### **EXAMINER'S AMENDMENT**

Please amend the abstract and the Specification according to the Supplemental Amendment made by the applicant on file dated 1/08/2009.

#### ***Allowable Subject Matter***

Claim1, 4-12, and 14 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: In this case the closest prior art of record belongs to the prior art of Kim (2004/0109650), Ono (2003/0158309).

Kim does not teach wherein a second resin composition constituting the second coating layer comprises a base polymer and 100 to 250 parts of metal hydroxide and 10 to 100 weight parts of a nitrogen base flame retardant material per 100 weight parts of the base polymer, and wherein the second resin composition does not contain halogenated materials further wherein polymer is constituted of a non-crystalline resin and wherein the base polymer comprises a mixture of polystyrene and polyphenylene base polymer. Kim is also silent to the mixture of polystyrene-base polymer and polyphenylene ether polymer in the second resin.

Ono is silent to the mixture of polystyrene base polymer and polyphenylene base polymer in the second resin.

The combination of Kim and Ono fails to teach all the limitation indicated above, hence the claims are allowable.

#### ***Drawings***

Eight (8) sheets of drawings were filed on 02/09/2005 and have been accepted by the examiner.

***Specification***

Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
